My wife asked me what kind of book and *Sometimes Perspective Finds You* was, and I really could not give *The Noticer Returns: Sometimes You Find Perspective* a description.

Sort of a mix between fiction and non fiction, motivation and fantasy. I must say that I am anxious to read other books of his. First let me give my negatives. As a And *Sometimes Perspective Finds You*, specifically one whose MA is in Biblical Counseling, I found some of the ideas taught by "Jones" to be pure pop psychology. The idea that if we have the proper perspective and mind This is the first time I have ever read Andy Andrews. The idea that if we have the proper perspective and mind then we can accomplish anything.

There is some truth found in some of these ideas but the foundation of human nature is that we are sinners, depraved and separated from God. Apart from the power of the Holy Spirit through the work of Jesus Christ, we have no hope of redemption. Man is sinner by nature, nothing we think or say regardless of how positive it is, will change that.

Some of the teachings of "Jones" boarded on the idea that man is truly good and just needs to think positive in order to accomplish whatever he desires. That being said, I underlined a great deal of the book and what Jones said. Many of *The Noticer Returns: Sometimes You Find Perspective* examples in the book are great, such as "the shoe salesman".

Many of these principles can be found in the Bible, just with the power of Christ in our life and through the work of the Holy Spirit. I gleaned a great deal from the book, although I tried to look at it through the lens of Scripture. You can certainly tell that Jones was a prototype of Christ in how he dealt with the people and what he taught them.

I would love to meet Mr. Andrews, and would love to listen to him speak. He is a fantastic writer, I could not put the book down. Anxious to read other writings of his. Read *Noticer* first. Andy Andrews continues in his motivational perspective on: right thinking, parenting, leadership, business, culture, and relationships. This books is sometimes hard to follow, but worth the effort, so persevere!

Once again, Andy Andrews wrote an incredible book. Jones is one of my favorite "people" in fiction and in real life. His advice, kindness, guidance and wisdom are inspirational and motivational. This is a book every one should read. I will be giving it to everyone in my family for Christmas. If there is anything in your life you want to change, improve on or try again, this is the book you want to read. Mar 02, Shirley Brosius rated it it was amazing Shelves: fiction.

I almost quit reading this book early on. New characters kept appearing, and I kept getting interrupted in my reading and confused understanding the plot. But I had already taken a few notes I wanted to remember, so *The Noticer Returns: Sometimes You Find Perspective* soldiered on. And am I glad I did. For instance, to parents seeking advice on molding the character of their children, he points out the difference between integrity and morality.

When was the last time you thought about that? A great storyteller, Andrews offers a fun read that offers principles valuable to couples, parents, teachers, employers, employees—really anyone facing the complex issues of life. In other words, everyone! A can't read fast enough book. Couldn't wait to hear from he and Andy again. It was awesome, touching, and inspiring. We all need Jones thank goodness we have Andy! You haven't really enjoyed a book till you read this one.

Ever wonder how *The Noticer Returns: Sometimes You Find Perspective* people handle life in general without really knowing them? The is a saying Don't Sweat *The Noticer Returns: Sometimes You Find Perspective Small Stuff*, in fact there are several books written that would have us think there is some great wisdom found by a simple quote tucked inside. But is there really? To a man known simply as Jones, Not Mr. Just Jones. Jones is a old man that is always around even though you may not see him as is the case for Andy Andrews who has run into Jones more than a handful of times and kno Ever wonder how some people handle life in general without really knowing them?

Jones is a old man that is always around even though you may not see him as is the case for Andy Andrews who has run into Jones more than a handful of times *The Noticer Returns: Sometimes You Find Perspective* knows undoubtedly he will see him again, but not sure when. Just that he will. If you handed Jones that sentiment about not sweating the small stuff he and *Sometimes Perspective Finds You* tell you "that is a lie and one that will ruin your life. He would tell you that your choices, your words and every move you make are permanent.

Life is lived in indelible ink. Wake up. You're making little bitty brushstrokes every minute you walk around on this earth. And with those tiny brushstrokes, you are creating the painting that your life will ultimately become—a masterpiece or a disaster.

You need to understand a very important fact about your earthly existence. It is this: Every single day for the rest of your life, somebody is going to push you in the pool.

And you'd better decide now how you're going to act when it happens. Are you going to come out of the water whining? Maybe crying and complaining? Will you throw fits or worse? Or will you come out of the water with a smile on your face?

Looking to see what you can learn Will you act happy though you feel uncertain? Almost every result that your life produces from this moment forward—good or bad—will depend upon how you choose.
