Does it have the power to achieve the impossible? Is it a negative or a positive science? What are its practical uses? All these and many such questions get answered in this book.

The fertile power of human mind and the infinite possibilities that emerge by the use of its innate potential are immense. Hypnotism is merely one such system, an occult science, that tries to tap these mental faculties. It takes the subject to a deep state of slumber or stupor after which the hypnotist exerts his will or extracts information. Book Review. Write a review.
